City Government Week

Throughout this week, cities in Broward County are joining other cities across Florida in celebrating Florida City Government Week.

This week has been set aside to recognize the many services city governments provide and their contribution to a better quality of life in Florida. City government truly provides grassroots home rule, with advice coming from neighbors, local business owners and community leaders.

Furthermore, Florida City Government Week is a unique opportunity to teach students about the form of government that affects them daily. In support of students interested in municipal government, the Broward League of Cities is offering high school juniors introductions into the world of public service through its Student Ambassador Program. High school seniors interested in pursuing a government-related career are encouraged to apply for the Broward League of Cities Scholarship for Government Studies.

During Florida City Government Week, we want to recognize the role city government plays in our lives, which includes keeping our streets safe, collecting the garbage, providing fire/rescue protection, and a host of recreation activities in addition to numerous other important services. We hope residents of Broward's 31 municipalities will celebrate by learning more about how their respective city operates for them.

Broward League of Cities President and Cooper City Mayor Debby Eisinger
